## LOGISTICS MANAGEMENT

### WELCOME TO ACCESS LOGISTICS MANAGEMENT

Access Logistics Management is a dynamic international freight service provider that was founded in August 2000, and is committed to providing our clients with a complete global package offering the best possible service and rates. We utilise a global network of partner agents with the same objectives and ethics as our own to ensure that our customers only deal with reputable and respected organisations within their own countries. We work very closely with agencies in China, Hong Kong, Singapore, New Zealand, Japan, Finland, Cameroon, Senegal and USA, just to name a few.

We are not just another freight forwarder or customs broker but instead aim to be an extension of your company, providing the best possible service and rates to meet your specific requirements. Our years of experience in international air and sea freight plus our expert knowledge of customs brokerage requirements are at our disposal. We look after all your freight and customs requirements the way you want them to be handled.

Our reputation is based on delivering efficient and innovative solutions to our customer's needs, whether they are freight or IT oriented. This is achieved through our dedicated and enthusiastic personnel, who are constantly undertaking training courses to keep up to date with industry changes.

## **SERVICES**

We offer a full range of value-add supply chain logistics services to the following sectors & industries: -

Sea Freight Forwarding

Air Freight Forwarding

Door-to-Door

Multimodal

Customs Brokerage

Depot Facilities

Warehousing & Distribution

Road and/or Rail Transport

Coastal Sea Freight

NVOCC services

Aircraft or Vessel Charters

## **SEA FREIGHT FORWARDING**

### ***Import and Export Sea Freight***

Access Logistics Management can handle any size shipment, both import and export. Whether LCL, FCL, break bulk service, RORO, conference or non-conference, we can provide the best sea freight services to meet your requirements and budget. Access Logistics Management also provides a consolidation service for your individual LCL/FAK shipments into full container movements for cost efficiency and security.

A key benefit of using us is our personalised service.

- LCL ( Less than a Container Load )
- FCL ( Full Container Load )
- Global NVOCC services ( FAK or Groupage Containers )
- Break Bulk for those shipments not suitable to containerise
- Port-to-Port or Door-to-Door service ( DDU / DDP )
- Export Document Preparation

Our experienced team of specialists can advise you of the available options to move your cargoes by sea.

## **AIR FREIGHT FORWARDING**

### ***Import and Export Air Freight***

Access Logistics Management through our worldwide network of partners is able to provide comprehensive airfreight services for import or export, using the world's most reliable airlines to provide either direct or deferred airfreight service. We look after your shipment from pickup to delivery anywhere in the world.

Our extensive schedule includes direct and consolidated shipments on all major trade lane routes.

Service options beyond direct and consolidated services include: next-flight shipments, charters, oversize shipments, packing & crating, bulk cargo, and dangerous goods handling.

Our experienced air freight team of specialists can advise you of the available options to move your cargoes by air with a thorough knowledge for your products.

A key benefit of using us is our personalised service from the time you make the booking, to the time the job is completed.

- Premium direct or economy deferred services
- Airport-to-Airport or Door-to-Door ( DDU / DDP )
- Fast recovery of freight once landed
- Bulk for those airfreight shipments needing special loading on aircraft
- Export document preparation
- Special / Emergency weekend service available

## **MULTIMODAL SHIPMENTS**

### ***Import, Export & Cross-trade Shipments***

Access Logistics Management through our worldwide network of partners is able to provide comprehensive multimodal services for import, export or cross-trade shipments, using our worldwide network of partners and the world's most reliable airlines/vessel operators to provide a solution to your shipping needs.

An example of a shipment we arranged like this would be shipping out of gauge cargo from a port where no break-bulk carriers call, but only containerised vessels are available. Consider this if the option of either aircraft or vessel con-line charter is just not a financial option.

Loading the cargo onto a flat rack at port 'A' for shipment to port 'B', where it is unloaded from the container & reloaded onto a low-loader trailer for transport to port 'C'. It is then loaded onto a break-bulk carrier for transport through to the destination at port 'D'.

Another example to save time and/or money includes air/sea. Airfreight from point 'A' to 'B', then sea freight ( either FCL, LCL or break bulk ) to point 'C', or the same in reverse order.

## **CUSTOMS BROKERAGE**

Access Logistics Management is licensed by the Australian Customs & Border Protection Service (ACBPS) as corporate brokers and we also have two full time senior customs brokers with over 70 years experience in the industry between them. One of the brokers (Managing Director) has been a continuous member of the Customs Brokers & Forwarders Council of Australia (CBFCA), formerly the Customs Agents Institute of Australia (CAIA) since 1989. Backed up by the latest in computer technology, we can provide the fastest and most accurate customs clearances possible. We build a complete profile of all your tariff codes and product descriptions, which are constantly updated with changes that might occur, and new products are added on a continuous basis. Our system is connected to our after hours office for 7 days a week / 24 hours a day availability.

In addition we are accredited by the Australian Quarantine & Inspection Service (AQIS) to make certain declarations pertaining to imported cargo & packaging, therefore providing your company with a reduced compliance screening rate.

We are also able to provide a complete range of quarantine consultancy and related services, and itemised landed costings if required.

- Electronic acceptance of commercial invoices
- Fast paperless electronic entry of imported cargoes
- Customs Brokers updated daily (electronically) on industry changes
- Tariff classification and consulting service available
- Detailed Landed Costing Service

## **DEPOT FACILITIES**

### ***Cargo Consolidation / Deconsolidation, Groupage & Distribution***

Access Logistics Management uses reputable depots to handle our containers to provide a caring and professional service. These depots have the equipment and facilities, not to mention the required ACBPS & AQIS approvals to operate secure areas.

These depots can offer a full range of services including packing, unpacking, distribution & storage of cargoes. For import FAK containers, our depot arranges picking up of the container, unpacking & having cargo available within 72 hours after availability from the wharf.

## **ROAD AND/OR RAIL TRANSPORT**

Access Logistics Management through key partnerships with transport companies, can handle any size shipment. Low-loaders, steerable dollies, cranes & escort vehicles can all be co-ordinated from our office for import, export or domestic shipments.

## **COASTAL SEA FREIGHT**

Through closely working with all shipping lines, we are able to move domestic containerised cargo on international vessels to / from major Australian ports.
